

ADJUVANT

80/20 SELECT™

ENHANCED COVERAGE AND PENETRATION.

80/20 Select™ is a high-quality, general purpose nonionic surfactant that can be used in most situations. Whether spraying insecticides, fungicides, or herbicides, **80/20 Select** will improve their performance. **80/20 Select** lowers the surface tension of the spray mix, allows for greater contact area. Also works to penetrate hydrophobic surfaces, ensuring the delivery of the active load to the target.

PRODUCT FEATURES

- No chemical interaction with actives.
- Allows for uniform delivery of spray mix.
- Increases coverage.
- Assists with penetration.
- Improves herbicide retention.

HOW IT WORKS

Our surfactant is designed to help spread and penetrate turf protection chemicals into target surfaces. When added to the spray mixture, **80/20 Select** will increase wetting ability, provide more uniform distribution on the leaf surface, and improve retention, increasing performance.

LABELED USES

- Fungicides
- Herbicides
- Insecticides

APPLICATION RATES

Applications	Amount per 25 gal of mix	Amount per 100 gal of mix
Insecticides	2 fl oz	3 to 8 fl oz
Fungicides	2 fl oz	3 to 8 fl oz
Herbicides	4 to 8 fl oz	1 to 2 pt
Acaricides	2 fl ozs	3 to 8 fl oz
Defoliants	4 to 8 fl oz	1 to 2 pt
Dessicants	4 to 8 fl oz	1 to 2 pt
Wettable powder	4 to 8 fl oz	1 to 2 pt

See label for complete application guidelines and restrictions.
