

INSECTICIDE

BIFEN

7.9F SELECT™

BROAD-SPECTRUM INSECTICIDE/TERMITICIDE.

Bifen 7.9F Select™ is an odorless, non-irritating to skin, non-phytotoxic residual insecticide that delivers superior, long lasting control. The active ingredient, bifenthrin, not only has a wide range of pests controlled but is approved in key indoor and outdoor areas such as residential, industrial, commercial, and food-handling areas for the prevention and control of termites, carpenter ants and other pests affecting structures.

PRODUCT FEATURES

- Controls a wide range of insects and mites on trees, shrubs, flowering plants, non-bearing fruit and nut trees, and flowers.
- Controls pests indoors and outdoors on residential, institutional, public, commercial, and industrial buildings, and lawns, parks, recreational areas, and athletic fields.
- For use in interiorscapes including hotels, shopping malls, and office buildings.
- For use in outdoor landscapes including residential dwellings, parks, institutional buildings, recreational areas, athletic fields, and home lawns.
- Prevents and controls ticks (including ticks that may transmit Lyme disease and Rocky Mountain spotted fever.)

LABELED USES

- In and around homes, commercial, and industrial buildings
- Recreational areas
- Athletic fields
- Lawns
- Landscape ornamentals

See label for complete application guidelines and restrictions.

BIFEN 7.9F SELECT™

BROAD-SPECTRUM INSECTICIDE/TERMITICIDE.

APPLICATION INFORMATION

Horticultural Applications

Bifenthrin 7.9F Select™ is effective for use on a broad range of insects and mites on trees, shrubs, leafy plants, nonbearing fruit and nut trees. It may also be used on interior plants found in hotels, shopping malls, office buildings and other similar areas. **Bifenthrin 7.9F Select** may be used by itself or in a tank-mix with other products such as insect growth regulators.

Turf Applications

Bifenthrin 7.9F Select can be used as a broadcast treatment on turfgrass for control of many insects including armyworms, cutworms, chinch bugs, ants, and ticks. **Bifenthrin 7.9F Select** may be applied at up to 1 fl. oz. per 1,000 square feet at the discretion of the applicator according to labeled directions for use. Maximum residual control requires the higher treatment rates.

Pest Control on Outside Surfaces and Around Buildings

Bifenthrin 7.9F Select may be used to control ants including carpenter ants and fire ants, armyworms, bees, beetles, biting flies, boxelder bugs, centipedes, chiggers, chinch bugs, clover mites, crickets, cutworms, dichondra flea beetles, earwigs, elm leaf beetles, firebrats, fleas, flies, gnats, grasshoppers, hornets, japanese beetles, midges, millipedes, mosquitoes, moths, roaches (including cockroaches), scorpions, silverfish, sod webworms, sowbugs (pillbugs), spider mites, spiders (including black widow spiders), springtails, ticks (including brown dog ticks,) and wasps.

Food Handling Establishments

If used as a general spot, surface, or crack and crevice treatment, **Bifenthrin 7.9F Select** may be applied in both food/feed and nonfood areas of food/feed-handling establishments. Food/feed-handling establishments are any place other than private residences where exposed food/feed is held, processed, prepared or served, including areas for receiving, storing, packing (bottling, boxing, canning, wrapping), preparing, enclosed processing systems (dairies, edible oils, mills, syrups) of food and edible waste storage. Serving areas where food is exposed and the facility is in operation are also considered food areas. Nonfood areas in which applications are allowed include entries and vestibules, floor drains (to sewers), garages, garbage rooms, lavatories, locker rooms, machine rooms, mop closets, offices, and storage (after canning or bottling.)

Livestock and Poultry Buildings and Kennels

Bifenthrin 7.9F Select may be used as a surface spray (including directed spray) and crack and crevice application for control of flies, fleas, beetles, bed bugs, mites and ticks. Usual cleaning of the structure must be completed along with the **Bifenthrin 7.9F Select** application for effective control.

LABELED INSECTS

All species of lawn ants	Carpenter ants	Fleas	Mosquitoes	Ticks
Annual bluegrass weevils	Chinch bugs	Mites	Scorpions	
Bill bugs	Fire ants	Mole crickets	Termites
