TEBUCONAZOLE 3.6F SELECT™

SYSTEMIC FUNGICIDE FOR THE PREVENTION AND CONTROL OF TURF AND ORNAMENTAL DISEASES.

APPLICATION INFORMATION

Turf

For use on all golf turf applications of cool-season and warm-season grasses (such as bentgrasses, bluegrasses, fescues, ryegrasses, St. Augustine grasses, and Zoysia) or their mixtures. **Tebuconazole 3.6F Select™** is not phytotoxic to any of the above mentioned grasses when used in accordance with the label.

Note: Bermudagrass can be sensitive to Tebuconazole 3.6F Select under certain conditions. DO NOT apply consecutive applications during or just after dormancy break. Avoid applications when temperatures are expected to exceed 85°F.

Restrictions

- For use on golf course turf only.
- **DO NOT** use on residential lawns and turf sites associated with apartment buildings, daycare centers, playgrounds, playfields, recreational park athletic fields, athletic fields located on or next to schools (i.e., elementary, middle and high school), campgrounds, churches, and theme parks.
- Not for use on turf being grown for sale or commercial use as sod.
- **DO NOT** use clippings for animal feed.
- **DO NOT** exceed 3.6 fl. oz. of Tebuconazole 3.6F Select per 1,000 sq. ft. per year.
- **DO NOT** apply more than 6 applications/year except in New York. In New York State, do not apply more than 3 applications/year.

Field, nursery and container ornamentals and commercial and residential landscape applications:

Tebuconazole 3.6F Select can be used in a preventive and curative disease control program for the plant types and diseases listed in this bulletin. Optimum disease management is obtained when **Tebuconazole 3.6F Select** is used in conjunction with sound disease-management practices. Apply material with properly calibrated hand held, mechanical or motorized spray equipment. Begin applications when disease first appears and repeat at 14-21 day intervals during the growing season. Use the shortest interval when conditions are unusually favorable for the development of disease.

Restrictions

- For use on ornamental plants only; not for use on woodlands or forest management.
- Intended for use only by professional applicators.
- **DO NOT** apply more than 10 fl. oz. per acre in a single application.
- **DO NOT** apply more than 0.31 gallons (40 fl. oz.) of Tebuconazole 3.6F Select (equal to 1.13 lbs. of tebuconazole) per acre per year.
- **DO NOT** make more than 4 applications per year at highest rate.
- **DO NOT** apply to bearing fruit trees or vegetables.
