HERBICIDE IC SELECT **BROAD-SPECTRUM CONTROL OF GRASS** AND BROADLEAF WEEDS.

Triad QC Select[™] combines the power of three versatile active ingredients to deliver effective postemergence weed control. Effective on both grassy and broadleaf weeds, Triad QC Select is the perfect option for spring break through and late season clean-up applications.

PRODUCT FEATURES

- Combines three active ingredients to help eliminate hard-to-control weeds.
- Perfect late-season clean-up product for areas that didn't receive a preemergence herbicide application in the spring.
- Can be applied as a spot application or broadcast spray.
- Controls newly germinated 1- to 2-leaf crabgrass to 1-tiller crabgrass, and when crabgrass has matured to 5-tillers or greater.
- The addition of Quinclorac delivers grass weed control through root and shoot absorption.

LABELED USES

- Residential and non-residential turfgrass
- Athletic fields
- Parks

- Golf course turf (not for use on greens, tees and collars)
- Sod farms

ACTIVE INGREDIENT

13.29% 2,4-D 9.79% quinclorac 1.67% dicamba

TRIAD OC SELECT

BROAD-SPECTRUM CONTROL OF GRASS AND BROADLEAF WEEDS

APPLICATION INFORMATION

Ornamental turf and sod

Broadcast treatment: Apply 7 to 8 pints/A (112 to 128 fl oz/A) in a spray volume of 20 to 300 gal/A (0.5 to 6.9 gal/1,000 sq ft). **DO NOT** exceed 2 broadcast applications per year, excluding spot treatments. For sod, the minimum retreatment interval is 21 days.

Spot Treatment: Apply 2.6 to 2.9 fl oz per 1,000 sq ft in a spray volume of 1 gal. **DO NOT** apply greater than 16 pints of this product per acre per year. The minimum retreatment interval is 21 days.

Non-turf areas

Control of annual and perennial plants

Broadcast treatment: Apply 7 to 8 pints/A (112 to 128 fl oz/A) in a spray volume of 20 to 300 gal/A (0.5 to 6.9 gal/1,000 sq ft). **DO NOT** exceed 2 broadcast applications per year, excluding spot treatments, with a minimum retreatment interval of 30 days.

Spot treatment: Apply 2.6 to 2.9 fl oz per 1,000 sq ft in a spray volume of 1 gal. **DO NOT** apply greater than 16 pints of this product per acre per year.

Restrictions

• DO NOT use on golf course greens, tees, and collars.

• DO NOT use on lawns with desirable clovers, legumes, or on ornamentals.

• Not for use on sod farms in Arizona. For use in New York by spot treatment only (spray individual weeds only, adjust the sprayer to coarse spray to minimize wind drift, apply to the center of the weeds, and spray to lightly cover).
